- ✦ Match the following
- ✦ True or false questions

Microbiology

This text book "Microbiology" has been written exclusively for nursing students according to the syllabus recommended by Indian Nursing Council. Hence, an attempt has been made to write this book with fluid language to easy understanding for nursing students.

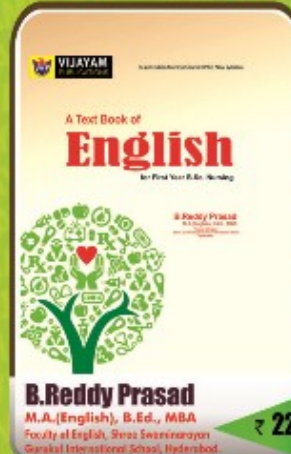

This book will provides the complete information regarding basic fundamentals of Microbiology with suitable illustrations, photographs and highlighting the microbiology for nurses in prevention and precaution to avoid communicable diseases. This book also

contains multiple choice questions and salvations, filling the blanks and match the following.

I hope this book is most useful for nurses for pursuing the nursing course.

₹ 399

English

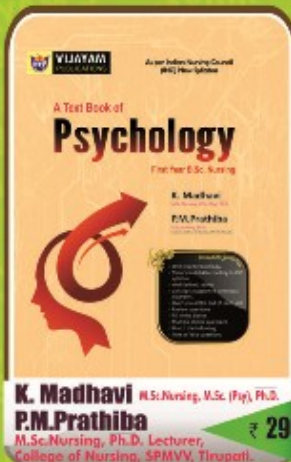

"Textbook of English for B. Sc. Nursing" is a comprehensive English guide intended to meet the requirements of First Year B.Sc. Nursing students. It aims to enable students to enhance ability to comprehend spoken and written English required for effective communication in their professional work and will practice their skills in verbal and written English during clinical and classroom experiences. It consists of two parts. Part-A consists of the lessons described in the from of summaries. Then important and probably questions are given with answers. These summaries

will improve and sharpen the nursing students' language skills. In Part-B grammatical parts have been described which will help the Nursing students to enhance their language abilities and will boost their confidence. The exercise has been given at the end of each unit to enhance practice. I hope this book will provide a great benefit to the users.

₹ 225

Psychology
